"The Central Enquirer" is the title of a paper just started in Centreville, Ala by Messrs W. D. Caddell & Co. Subscription price, \$2 a year in advance. We have received the second number issued, and find it a very neatly printed sheet, filled with matter of interest. In politics, the "Enquirer" is Democratic. We congratulate the Democracy of Bibb, that they have a paper to advocate their principles; and would impress upon them the importance of extending to it a liberal patronage.
